

Summa International Fashion year 1

Course 2026-2027

To be able to follow the education properly, you need certain materials. All basic materials and fabrics are available at school.

Would you prefer to work with your own materials?

Then you may purchase these yourself. You are free to decide where you buy them. Purchasing your own materials is not mandatory; the school provides suitable alternatives.

If you wish to use materials or fabrics that differ from those the school normally provides, you should purchase these yourself.

quantity	product	details	price indication
